

# SILO

**The key solution for material storage.**

WEISS A/S produces a variety of steel silos designed to store fine-grained material such as sawdust, shavings, woodchips, bark and pellet.

Our offer includes designing, production, mounting and warranty service.

To meet the requirements of our customers we offer:

- Flat-bottomed storage silos with intermediate floor for installation of out-feeding screw worm
- Conical bottom silos with tapered funnel for quick discharge t-feeding screw worm
- Rectangular silos with a pit for hydraulic out-feeding system
- Mobile fuel storage with a built-in out-feeding system

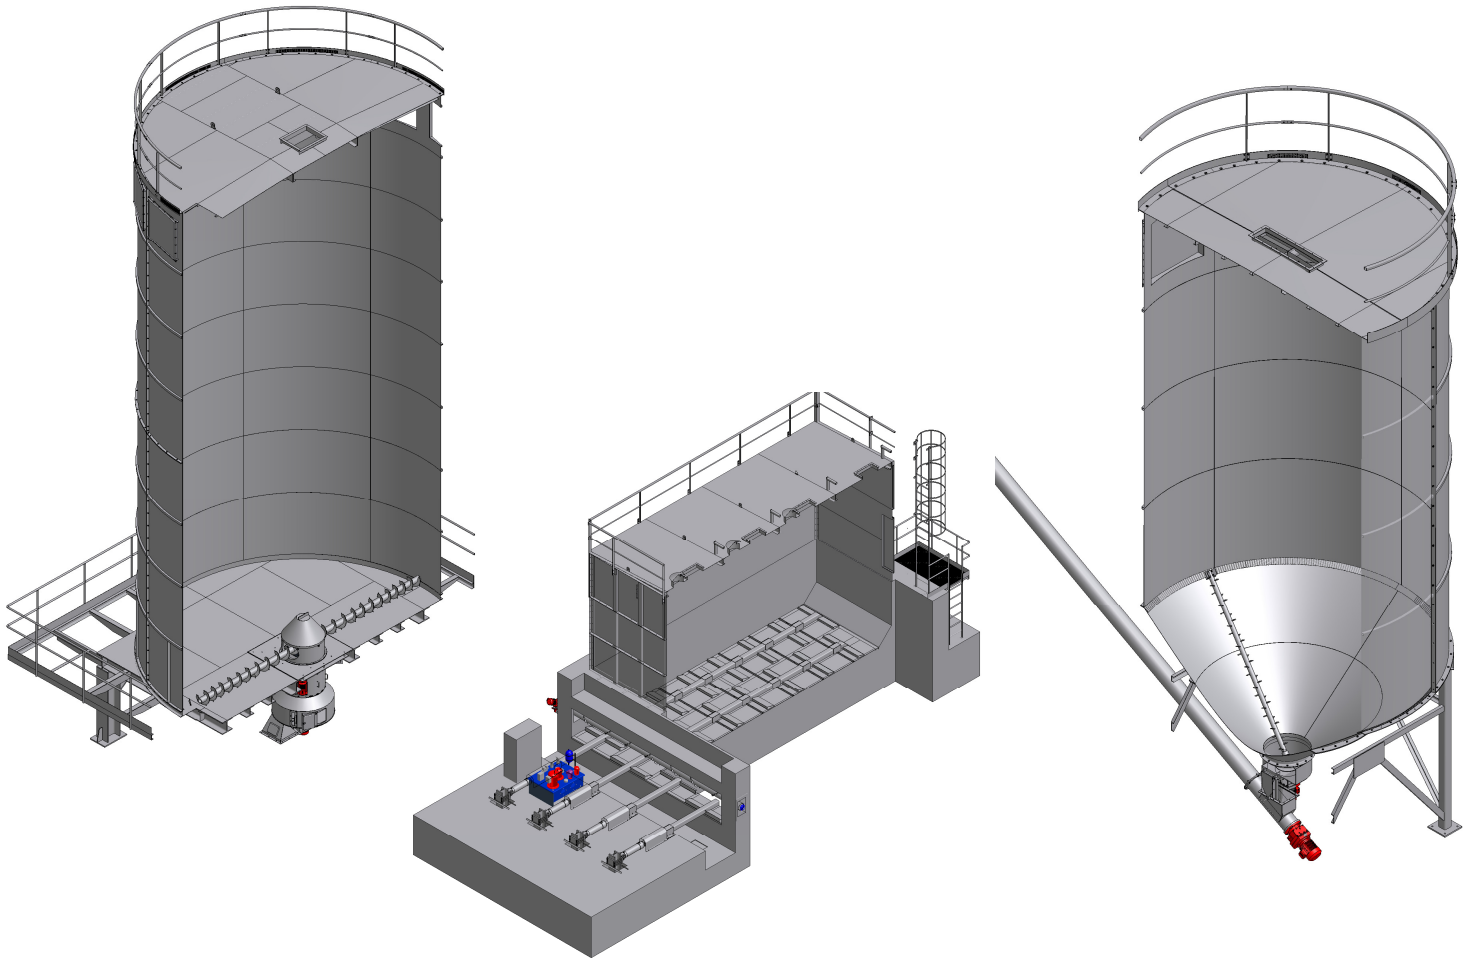

The silo can be mounted on a supporting construction, screed or concrete foundation .  
The steel construction is protected with an corrosion-resistant mantle. An appropriate thickness of steel modules and reinforced construction ensures its stability and durability.

We reserve our right to alter the specifications at any time without prior notice.
